Metro Manila, Quezon City, Philippines

- Assisted in garment production and small-batch development
- Designed graphics for textile printing
- Supported material sourcing and sample preparation
- Conducted quality control and product finishing

A LITTLE ABOUT ME..

Creative Product Designer with a background in Interactive Media Design and Veterinary Medicine. I develop thoughtful product and packaging concepts that combine digital design, production knowledge, and creative problem-solving. I also have training in fashion design, where I learned the fundamentals of product development and accessory design. Experienced in creating customizable product systems and translating ideas from concept to production-ready outputs.
